

FICTIONAL DEMONSTRATION — POLISHED SOP

(No real company, employee, or system. For SOP-service capability testing only.)

New Employee First-Day Office Setup

Standard Operating Procedure — Draft

Purpose

This procedure describes how the office is prepared for a new employee's first day, so that IT access, building access, workspace, and orientation are ready before the employee arrives and nothing is missed or duplicated.

Scope

Applies to new employees reporting to the office in person on day 1. This version covers the standard in-office start; see Escalation & Clarification for a gap in coverage for remote/hybrid starts.

Responsible Role

Primary: Office Coordinator (owns the overall checklist and day-1 walkthrough).

Supporting: HR (credentials, welcome kit sizing, benefits email), IT (laptop and login setup), Building Security (badge), Facilities (parking pass, if needed).

Required Materials / Inputs

- New hire's start date and personal email address (for HR to send temp credentials)
- Welcome kit items: notebook, pen, water bottle, company hoodie (sizes S–XL; size confirmed with HR ahead of time)
- Access to the "Office Seating" tab (shared seating chart)
- Whether the new hire will need a parking pass (yes/no)

Procedure

A. At Least 2 Business Days Before Start Date

1. Email IT with the new hire's name and start date so a laptop can be preloaded with standard software.
2. Request a building access badge from Building Security for the start date.
3. Confirm with HR the new hire's requested hoodie size (S–XL) for the welcome kit.

B. Before Day 1

4. Check the "Office Seating" tab and assign the new hire a desk near their team; prepare the desk in advance.
5. Assemble the welcome kit (notebook, pen, water bottle, hoodie in the confirmed size) and place it at the assigned desk.
6. Confirm HR has sent the new hire their temporary login credentials to their personal email address.
7. Schedule a 15-minute introduction meeting between the new hire and their manager for the morning of day 1.
8. If the new hire has indicated they will drive and need parking, submit a parking pass request to Facilities. Note: this typically takes about 3 business days and may not be ready by day 1 — see Important Notes.

C. Morning of Day 1

9. Meet the new hire at reception at 9:00 AM.
10. Walk the new hire to their assigned desk.
11. Confirm the laptop has arrived at the desk (dropped off by IT, labeled with the employee's name). If it has not, contact IT before proceeding.

12. Watch the new hire log in with their temporary credentials and connect to the office WiFi (network: CorpNet-5G) — confirm both succeed rather than assuming they will.
13. If the access badge is not ready when the new hire arrives, call the Security Desk at ext. 4521 to issue a temporary visitor badge for the day.

D. During Day 1

14. Confirm the manager introduction meeting takes place as scheduled.
15. Join or arrange for the new hire to join the team for lunch (informal, at the team's usual lunch time).
16. Printer setup is optional on day 1 and may be completed later in the week.

E. End of Day 1

17. Confirm HR has sent the new hire the welcome email containing benefits portal links.

Important Notes / Warnings

- ⚠ **Parking pass requests take about 3 business days. If the request is submitted less than 3 business days before start, the pass may not be ready on day 1. Tell the new hire this in advance if it applies.**
- ⚠ **Do not assume login or WiFi access works — confirm both by watching the new hire successfully connect.**
- ⚠ **The temporary visitor badge process (ext. 4521) is a same-day workaround, not a substitute for requesting the real badge on time.**

Completion Checklist

- ☐ IT emailed ≥ 2 business days before start; laptop confirmed preloaded
- ☐ Badge requested from Building Security
- ☐ Hoodie size confirmed with HR; welcome kit assembled
- ☐ Desk assigned via Office Seating tab and prepared
- ☐ Temporary login credentials sent by HR to new hire's personal email
- ☐ 15-minute manager introduction scheduled for day 1
- ☐ Parking pass requested with Facilities, if needed
- ☐ New hire met at reception at 9:00 AM and walked to desk
- ☐ Laptop presence at desk confirmed
- ☐ Login and WiFi (CorpNet-5G) connection confirmed in person
- ☐ Manager introduction meeting held
- ☐ Team lunch joined or arranged
- ☐ HR welcome/benefits email confirmed sent

Escalation / Clarification

Badge not ready at 9:00 AM arrival: call Security Desk, ext. 4521, for a temporary visitor badge.

Laptop not at desk by 9:00 AM: contact IT directly before continuing the walkthrough.

? Not yet defined: there is no documented process for a new hire whose first week is remote or hybrid rather than fully in-office. This should be confirmed with the process owner before it comes up, rather than improvised.

Version / Date

Version: 0.1 (Draft, from raw notes — not yet reviewed by process owner)

Date prepared: [fictional demonstration — no real date implied]

Prepared by: Office Coordinator (fictional role, for demonstration)
